Percentage from the Top	%	30.3	33.1	49.4	32.0	38.0	35.8

* ROE is an important indicator, calculated as net profit / equity (= shareholders' equity), that measures the final profit secured using shareholders' equity.

As the average of term-end equity of 2 terms is used as the denominator, companies posting zero or negative equity during the relevant terms are excluded.

ROE for the latest quarter is calculated using estimated net profit for this term and shareholders' equity as of the end of the previous term and of the latest quarter.

ROA	%	7.4	7.9	7.9	7.8	7.8	7.8
29 Sectors	%	5.4	5.2	5.6	5.7	6.2	6.0
Ranking		1027	961	1046	1135	1170	1096
No. of Companies		3351	3355	3427	3450	3540	3512
Percentage from the Top	%	30.6	28.6	30.5	32.9	33.1	31.2

* ROA is calculated as Earnings before Interest and Taxes (operating profit + interest revenue + dividend income and interest on securities) / total assets. It is justifiable for a company to expand its business by financial leverage using debt, if the company's ROA exceeds the company's financing cost (e.g. cost of issuing 10-year corporate bonds = 2%).

Interest coverage ratio shown on P11 indicates the ratio of Earnings before Interest and Taxes to financial expenses (interest and discount expenses), with 10 times regarded as ideal.

If the interest coverage ratio holds a sufficient level with a high ROA and Profit Ratio of Sales, a company has no problem in financing aggressively.

As the average of term-end equity of 2 terms is used as the denominator, companies unable to be measured with the same standard are excluded.

ROA for the latest quarter is calculated using estimated operating profit for this term and total assets as of the end of the previous term and of the latest quarter.

Dividend Payout Ratio	%	28.9	36.2	56.8	51.4	51.6	
29 Sectors	%	29.2	31.2	33.8	30.1	27.4	
Ranking		1122	639	212	282	218	
No. of Companies		3365	3220	3238	3438	3525	
Percentage from the Top	%	33.3	19.8	6.5	8.2	6.2	

* Dividend Payout Ratio is calculated as total dividend / net profit. It should be noted that it may differ from the figure announced by the companies calculated from profit per share according to the accounting principle.

Data for total annual dividend exceeding net profit and dividend of unprofitable companies are excluded from the rankings.

DOE	%	2.9	3.6	4.0	5.4	5.2	
29 Sectors	%	2.5	2.5	2.7	2.8	2.9	
Ranking		622	398	347	222	237	
No. of Companies		3365	3220	3238	3438	3493	
Percentage from the Top	%	18.5	12.4	10.7	6.5	6.8	

* DOE, calculated as ROE times the dividend payout ratio, can be called the "true dividend payout ratio", and is closely tracked by global investors.

Its inverse (1 / DOE) equals the period (year) to recover shareholders' equity via the dividend.

As the average of term-end equity of two terms is used as the denominator, companies posting zero or negative equity during the relevant terms are excluded.

Disclaimers

- This report has been prepared under a contract between Nippon Air Conditioning Services Co., Ltd. (hereafter "the Company") and Spring Capital Co., Ltd. (hereafter "Spring") by Spring. In the contract, the Company has consented that Spring prepare this report based entirely upon the standards of Spring only and excluding any intervention from the Company on all items, including qualitative information, the management indicators adopted in the financial indicators ranking, and business sectors adopted in the comparison reports.
- This report has been compiled for the purpose of investors monitoring financial indicators rankings prepared from an objective perspective, and is not aimed at soliciting investment. Therefore, investment decisions and activity are to be conducted solely based on the investors' intentions, and Spring and the Company are not responsible for such actions or results.
- Spring has not placed a restriction on the Company regarding the distribution of this report, but all intellectual property rights, including the copyright of the financial indicators ranking and all the data associated with the comparison report, belong to Spring. Consequently, readers of this report and others are strictly prohibited from actions such as publishing and reproducing and releasing this report and data, including via electronic media, without Spring's permission.

Disclaimers on Overall Management Indicator

- All sectors in this report refer to the 29 sectors that are among the 33 sectors of the Tokyo Stock Exchange, excluding the 4 financial sectors (Banks, Securities and Commodity Futures, Insurance, and Other Financials) - which use different accounting standards - and all companies for which common shares were listed on the Japanese stock market as of the end of March 2018. In the calculation for Growth Potential, ROA, ROE, and other items, the companies analyzed total 3,372. Given that the earnings numbers for the most recent 4 fiscal years were used, about 50 companies were excluded in total as some companies had not released earnings results for the relevant terms or had posted zero or negative equity at least once, including about 10 companies whose earnings data cannot be recalculated into reasonable figures based on Japanese accounting standards.
- The numbers used in this report for FY2018 are adopted in the following order of priority: (1) numbers in a company's earnings results; (2) company's forecasts; and (3) estimates by Spring. In the Nov. 2018 report, estimates for FY2018 by Spring are used for 42 companies.
- On P7-P8, a historical comparison is made on Growth Potential, Sales Profitability, ROE, and ROA with 29 business sectors and with the Company's sector as defined by the Tokyo Stock Exchange. The figures for ROE and ROA used in the comparison match those on P10. However, for Growth Potential and Sales Profitability, the calculation method has been changed starting in the finalized report for FY2017 (as of May 2018) such that the calculations are based only on companies that have announced their earnings continuously from FY2010 to FY2017, in order to allow comparison of Growth Potential and Sales Profitability for eight years up to FY2018. Therefore, the number of companies on which the calculation is based is different from the number as shown on P9.
- Going forward, this report will be prepared on a quarterly basis, with the FY2018 Q3 report (based on February 2019) to be issued in the month following the month of basis. The finalized report for FY2018 will be based on May 2019 and issued in the following month.
- Overall Management Indicator (as scored by Spring) in this report represents an overall score, which is a composite of Growth Potential, Asset & Capital Profitability, Sales Profitability, and Sound Dividend Payout Ratio. The weighting for each category has been set at 30%, 25%, 20%, and 25%, respectively.
- Corporate earnings data in this report are owned by Spring, and some data have been verified with information vendors with which Spring has a contract for greater accuracy. However, Spring does not guarantee completeness of the information. The content of this report was valid at the time the materials were compiled and may change without prior notice.
