(Notes on segment information, etc.)

The Group provides maintenance services that provide maintenance and maintenance of building facilities, equipment and environmental assessments, and solution proposals (energy-saving and cost-saving proposals, environmental improvement proposals) at each site in Japan and overseas, as well as renovation work derived from the sites that provide these services. We are developing business activities that integrate maintenance services and renewal work. In addition, we are developing a business that sells electricity using solar power generation.

Since the electricity sales business is not of much importance, the business that integrates maintenance services and renewal work is included in a single reporting segment, and the description is omitted.
